Powwow

The powwow drum is one of the ancient ceremonial drums of the American Plains Indians. Today these drums are still played at Powwows continuously for several days.

Incl. mallets and stand.

POW-65 small, Ø 25.6 inch, height 12.2 inch

POW-90 large, Ø 35.4 inch, height 12.2 inch

... a night of drumming, singing and dancing with the Powwow drum. Four drummers together at the powwow accompany the dancer. It is unbelievable how much energy the drum gives back - energy which awakens my own powers and keeps me awake. It is a long night, and as the sun rises, it becomes light and a new day starts.

Nicole Griebel, Musician

 Knetzgau

Gongdrum

These drums can also be attached to a metal gong stand and be played vertically as gong drums.

Incl. mallets and stand.

GOM-65 small, Ø 25.6 inch, height 12.2 inch

GOM-90 large, Ø 35.4 inch, height 12.2 inch

Sweat Lodge Drum

My mother enjoyed feeling the vibration of the drum on her body during her last days, when I played the drum for her. These drum vibrations created the atmosphere for my family for my mothers funeral at the Friedwald Forest at my mother's favorite tree. With the sound of the drum, we placed the urn into Grandmother Earth, as my mother wanted it to be. Through the drum, we feel our connection with Earth.

A friend

Our drums are only made out of natural skin (animal) and wood (trees). On the back of the drum, 16 hide ropes are combined in 4 segments each. They are wrapped in leather for comfortable handling. Comes with a mallet with a red leather head filled with sheep wool.

The round drum symbolises the univers and the circle. The oval drum can be geometrically defined as two circles. This drum exists with the saemic people from Scandinavia and in Tuva. The oval symbolises the power of the eliptical form, the movement of the earth around the sun. The oval allows a great diamter which still can be hold close to the body.

Sweat Lodge Drum, Calfskin white

- SH-40 ∅ 16 inch
- SH-55 ∅ 22 inch
- SH-OV oval ∅ 22 x 12.4 inch
